

TO A SUSTAINABLE FUTURE

Wairarapa Museum of Art and History

aratoi

One of Aratoi's largest annual cost is electricity. Electricity runs the temperature-controlled environment necessary to display and preserve collections for future generations.

A SUSTAINABLE FUTURE FOR ARATOI

We propose to install a solar farm and reduce our annual energy bill.

BENEFITS

One panel donation to Aratoi is effectively a gift of \$120 each year for the next 20 years.

300 solar panels at a cost of \$630 each will reduce annual electricity costs by almost 50%.

The panels reduce carbon emissions and contribute to making Aratoi "clean and green".

STAGE 1

Installation of at least 125 panels in 2021. Aratoi has already secured commitments for more than half this number.

Would you and a group of friends consider a donation to Aratoi for this project?

You will support a good cause and receive public name-recognition.

Most donations will qualify for a tax credit of \$210 and the after-tax cost of a donation for one panel is only \$420.

Please support Aratoi's future sustainability by completing the donation commitment form.
